

Richpeace Laser Engraving and Cutting Machine

https://www.youtube.com/watch?v=POBnCjAEOxw&index=16&t=4s&list=PLyA0r70u0_wBCuwbgSt8q1WFDDgWzgCua

DESCRIPTION OF PRODUCTS

we supply laser cutting machine with structures one set material feeding device

- Cutting Area:
900mmx600mm
- Richpeace autolaser
software power supply
- Upper and nether double
exhaustion is more helpful
for environmental protection
- Body color: off-white with
dark gery

MODEL: RPLC-CB090X060S08C

DESCRIPTION OF PRODUCTS

MODEL: RPLC-CB090X060S08C

- Engraving software can work with Auto CAD, CorelDraw systems directly, and output original images perfectly.
- Advanced color management system supports various colors output in one-time.
- Build-in 64MB data storage plus USB flash memory plug and play for data read/write.
- Graphic format support: BMP, GIF, JPEG, PCX, TGA, TIFF, PLT, CDR, DMG, DXF, DST.

OPERATION COMPUTER

- Silica gel button with friendly interface convenient and flexibility to operate

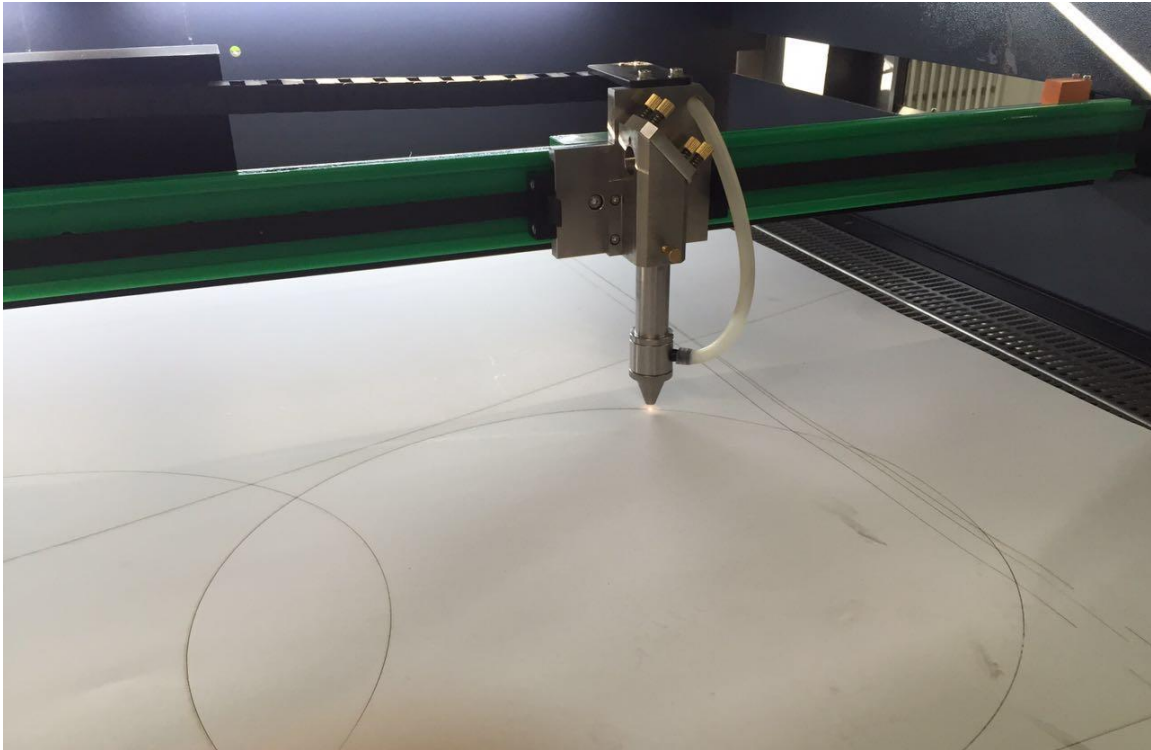

MACHINE SPECIFICATION

Laser tube:

Enhanced 80W laser tube.8000-10000
working hours

MACHINE SPECIFICATION

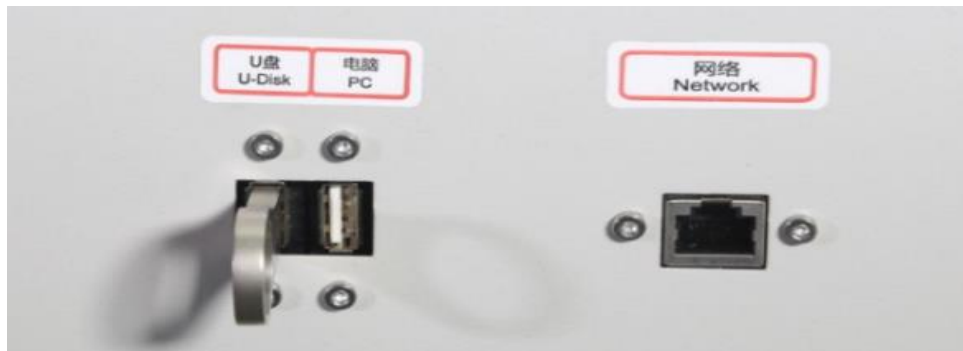

- Single laser head
- High cutting precision, maximum tolerance $\pm 0.05\text{mm}$.

MACHINE SPECIFICATION

- Motor stainless steel conveyor table

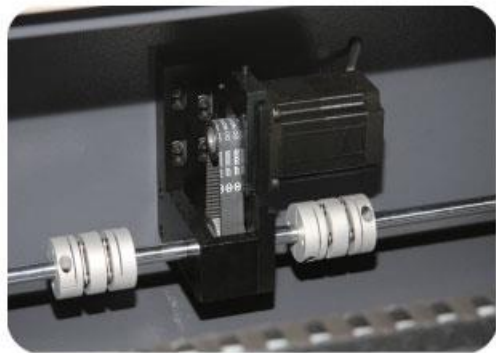

- U-disk, PC ,network 3 types to input cutting files

MACHINE SPECIFICATION

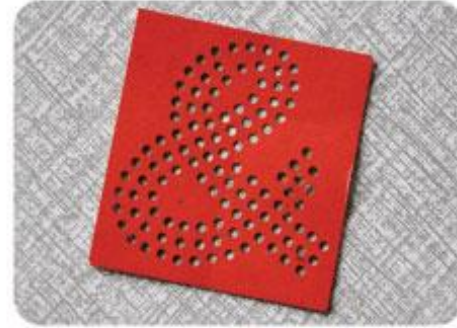

Dedicated water pipe cooling system guarantee good cut or engrave effect, prolong the working life of laser tube.

Mini air compressor

CUTTING SAMPLES

Industry sampling and fabrics cutting. Bamboo & wood engraving. Advertising industry acrylic engraving & cutting. Packaging box engraving and cutting etc. cutting. Packaging box engraving and cutting.
